Announce a Great Remodeling Sale

Conditions and Reasons Are Herein Set Forth

For twenty-five years we have been expanding, remodeling and rebuilding our present store, hardly a year passing by in which we have not been going through some form of inconvenience on account of it. The necessity of remodeling the main part of our second floor, occupied by our Suit and Cloak Section, in order to bring it up to the standard of the balance of the floor, we now find will in all probability cause us more inconvenience than any former piece of rebuilding we've ever undertaken. The entire Suit Department must be vacated by early July and turned over to an army of workmen, which means that we must dispose of at least one half of our entire second floor stocks in the next six weeks.

To-Morrow We Start a Gigantic Sale of Suits, Dresses, Skirts, Wraps and Waists

Nothing in the entire department will escape the mark-down man at some time or other during the weeks of the sale. Our idea is to dispose of as much stock as is necessary now, under conditions advantageous and agreeable to purchasers, rather than try to do a normal business under cramped and disagreeable conditions after contractors begin remodeling.

In order that every customer may share equally in these bargains, only a limited number to a customer.
